

PRODUCE NON-RUMINANT ANIMALS

UNIT CODE: 0811 451 09A

TVET CDACC UNIT CODE: AGR/OS/EXT/CR/06/4/MA

UNIT DESCRIPTION

This unit specifies competencies required to produce non-ruminant animals. It comprises of breeding and feeding Non ruminant animals, managing parasites and diseases, carryingout routine management practices in Non-ruminant animals and marketing Non ruminant animal products.

ELEMENTS AND PERFORMANCE CRITERIA

ELEMENT	PERFORMANCECRITERIA
These describe the key outcomes which makeup work place function.	These are assessable statements which specify the required level of performance for each of the elements. <i>Bold and italicized terms are elaborated in the range.</i>
1. Breed Non ruminant animal	1.1 Breeding tools and equipment are assembled as per work requirement 1.2 Breeding stock is selected as per work procedure 1.3 Service of breeding Stock is carried out as per work procedure 1.4 Breeding record is prepared as per work procedure
2. Feed Non ruminant animals	2.1 Non ruminant animal feeds are identified as per animal nutritional requirement 2.2 Non ruminant feed ration is formulated as per animal feeding standard manual 2.3 Feed quantity is determined as per animal nutritional requirement 2.4 Feeding record is prepared as per work procedure
3. Manage Non ruminant parasites	3.1 Parasite prevention and control schedule is developed as per work requirement 3.2 PPEs are worn as per work requirement 3.3 Materials and equipment for parasite control are assembled as per work requirement

	<p>3.4 Parasites control method is applied based on type of parasite being controlled</p> <p>3.5 Parasite control record is prepared as per work procedure</p> <p>3.6 Parasite control wastes are managed as per work procedure</p>
4. Manage Non ruminant diseases	<p>4.1 Disease prevention and control schedule is developed as per work requirement</p> <p>4.2 PPEs are worn as per work requirement</p> <p>4.3 Materials and equipment for disease control are assembled as per work requirement</p> <p>4.4 Disease control method is applied as per work requirement</p> <p>4.5 Health record is prepared as per work procedure</p> <p>4.6 Disease control wastes are managed as per work procedure</p>
5. Carry out Non ruminant routine management practices	<p>5.1 Routine management practice schedule is prepared as per work requirement</p> <p>5.2 PPEs are worn as per work requirement</p> <p>5.3 Materials and equipment are assembled as per work requirement</p> <p>5.4 Non ruminant routine management procedure is performed as per work requirement</p> <p>5.5 Routine management practice record are prepared as per work requirement</p>
6. Market Non ruminant products	<p>6.1 Non-ruminant products are processed as per product requirement</p> <p>6.2 Non-ruminant products are preserved as per product requirement</p> <p>6.3 Non-ruminant products are distributed as per product requirement</p> <p>6.4 Records are prepared as per work procedures</p>

RANGE

2025, TVET CDACC

This section provides work environments and conditions to which the performance criteria apply. It allows for different work environments and situations that will affect performance.

Variable	Range
1. Breeding tools and equipment include but not limited to	<ul style="list-style-type: none"> ● Animal pregnancy testing kit ● Hormone testing kit ● Semen collect ● ion kit ● Ovulation prediction monitors
2. Animal feeds include but not limited to	<ul style="list-style-type: none"> ● Concentrates ● Forage ● Pastures
3. PPEs include but not limited to	<ul style="list-style-type: none"> ● Gloves ● Overalls ● Gumboots ● Head gear ● Face mask
4. Parasites control method	<ul style="list-style-type: none"> ● Deworming ● Spraying ● Fumigation
5. Disease control method	<ul style="list-style-type: none"> ● Vaccination ● Quarantine ● Vector control
6. Routine management practice	<ul style="list-style-type: none"> ● Identification ● Castration ● Teeth clipping ● Debeaking ● Tail clipping

	<ul style="list-style-type: none"> • Sexing • Iron injection
7. Routine management practice record	<ul style="list-style-type: none"> • Breeding records • Production records • Feeding records • Health records

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit of competency.

Required skills

The individual needs to demonstrate the following skills:

- Handling tools and equipment
- Animal handling
- Communication skills
- Digital skills
- Occupational health and safety
- Problem solving
- Marketing skills
- Financial management skills

Required knowledge

The individual needs to demonstrate knowledge of:

- Genetics
- Anatomy and physiology
- Basic pathology

EVIDENCE GUIDE

This provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge and range.

1. Critical Aspects of Competency	<p>Assessment requires evidence that the candidate:</p> <ul style="list-style-type: none"> 1.1 Selected breeding stock as per work procedure 1.2 Identified Non-ruminant animal feeds as per animal nutritional requirement 1.3 Formulated Non-ruminant feed ration as per animal feeding standard manual 1.4 Determined feed quantity as per animal nutritional requirement 1.5 Applied parasites control method based on type of parasite being controlled 1.6 Applied disease control method as per work requirement 1.7 Performed Non-ruminant routine management procedure as per work requirement 1.8 Non-ruminant products are preserved as per product requirement 1.9 Records are prepared as per work procedures
2. Resource Implications	<p>The following resources should be provided:</p> <ul style="list-style-type: none"> 2.1 Appropriately simulated environment where assessment can take place 2.2 Access to relevant workplace assessment environment 2.3 Resources relevant to the proposed assessment activity or tasks
3. Methods of Assessment	<p>Competency may be assessed through:</p> <ul style="list-style-type: none"> 3.1 Practical assessment 3.2 Project 3.3 Portfolio of evidence 3.4 Third party report 3.5 Written assessment 3.6 Oral assessment
4. Context of Assessment	<p>This competency may be assessed in a workplace or in a simulated workplace.</p>
5. Guidance	<p>Holistic assessment with other units relevant to the industry sector,</p>

information for assessment	workplace and job roles is recommended.
